

**“OUR SUSTAINABILITY
PROGRAMS WILL
CONSERVE
2 MILLION GALLONS
OF WATER ANNUALLY.”**

SUSTAINABLE EVENTS

Our Sustainable Meetings Program

Revolves around **Southern Aluminum** linenless aluminum tables.

- The elimination of table linens contributes to annual hotel water savings of 2 million gallons.
- We implement centralized break stations and provide a reusable bottle filling station in our conference center to reduce plastic and paper waste.
- Our foyer and atrium is accented with live plants and food waste is composted whenever possible.
- Numerous high-efficiency commercial appliances and guest suite enhancements have been installed to further our sustainability efforts.
